Urinary Problems

What specific problems are you noticing?

- Urinating around the house?
- Urinating frequently?
- Difficulty urinating?
- Other:

If your pet is urinating around the house, is it in one specific area or room?

When did you first notice the problem?

Has there been any change in routine lately (new furniture, visitors, remodeling, new pets, etc)?

Does the urine look discolored or bloody?

Is your pet eating and drinking well? More than normal?

Have you seen any vomiting or diarrhea?

What type of diet are you feeding?

For cats:

How many litterboxes are in the house?

Are any of the litterboxes self-cleaning? Covered?

Are the litterboxes all on one level, or on multiple levels?

What rooms are the litterboxes in (furnace room, laundry room, bedroom, etc)?

How often are the litterboxes cleaned?

Have there been any recent litterbox changes?

- Placement of litterbox
- Type of litter
- Frequency of cleaning

Are there other cats in the household? Are they having any urinary problems?
